

ATF Cooling GmbH ist an innovative and dynamically growing company in the field of process cooling for machine tools, energy storage systems, and data centers.

To strengthen our team and enhance our expertise in refrigeration technology, we are currently looking for an experienced

Master Technician in Refrigeration Technology (m/f/d) in Full-time or Part-time

Your Responsibilities

- Maintenance, commissioning, and repair of refrigeration and air conditioning systems
- Preparation and documentation of service and maintenance reports
- Technical support for customers and service teams
- Training and instruction of technicians, as well as conducting internal and external training programs
- Planning and managing projects in the field of refrigeration and air conditioning technology, including customer projects
- Quality assurance and compliance with safety standards
- Participation in trade fairs, customer visits, and technical presentations

Your Profil

- Completed qualification as a Master Technician in Refrigeration Technology or equivalent certification
- Instructor qualification (AEVO) or proven experience in conducting technical training
- Several years of professional experience in the field of refrigeration and air conditioning technology
- Good knowledge of current F-Gas regulations and common refrigerants; certification according to ChemKlimaschutzV Category I or II is an advantage
- Experience in project management **or** technical customer project support is an asset
- Ability to independently prepare service and maintenance reports
- Independent, structured, and customer-oriented way of working
- Willingness to travel occasionally

We Offer

- A secure position in an expanding, international, and modern company with **long-term** prospects, attractive remuneration, and diverse opportunities for professional development
- Technically sophisticated products with high market potential
- A responsible position with freedom to shape your work
- Flat hierarchies, short decision-making processes, and room for initiative
- Support from a technically experienced team
- Excellent teamwork, company events (**e.g.** team activities), and a family-like, pleasant working atmosphere

Are you ready to take the next step in your career?
